**RE: Bring Up Grades (BUG) Program**

Our school is involved in a unique and fun program known as BUG, or Bring Up Grades. Kiwanis volunteers from the community assist with implementing this program at our school.

Please take time to read the attached flier, which provides more information about Bring Up Grades. Our goal is to motivate all students to do their best and achieve academically. We hope to honor all students at some point during the year.

If your child achieves this recognition and is honored as a BUG recipient you will receive an invitation to attend a special recognition party.

Thank you for all you do and we look forward to seeing you in the near future at one of our Bring Up Grades recognition events.
