

Working together and accomplishing goals!

Objective:

All participants have something important to contribute to the group. Participants also learn that the differences in others are what make us unique and provide perspective.

8 or more should participate.

Materials:

Paper

Colored markers

How to play:

Break into groups of 4 to six individuals.

Give each group a sheet of paper and a package of colored markers. Explain that each person in the group should get one marker.

The goal is to work together as a group to create a drawing. One person starts by drawing a line or shape on the paper. The next person then adds a line or shape and so on, until everyone has had an opportunity to draw on the paper.

The group must then work together to come up with a story about the drawing they just created.

Ask the group to write the story about their drawing on the back of the paper. The key here is to see how everyone's unique perspective contributed to creating the drawing and coming-up with the story. Everyone came together to accomplish a goal.
