

# *My Observations*

This activity will allow members to:

- Reflect on what they've learned from others.
- Think through problems to find solutions.
- Think about ways the club can help the community.

Materials needed:

- One printed worksheet per member. Download it at [kkids.org/IDEA](http://kkids.org/IDEA).
- Pens or pencils

How to lead this activity:

Help members organize their thoughts!

1. Give each member a My Observations worksheet.
2. Let members know this worksheet will help them think through activities as they complete them.

This is a resource members can use on their own after the following activities: Community Assessment, Friends and Family Questionnaire and Service Project Interview Guide. See pages 10–14 in the IDEA guide for more information.
