

Builders Club helps students develop confidence and compassion.

The middle years are an exciting time for young people. They are discovering who they are and who they want to become. Builders Club helps members on this journey of self-discovery with experiences in learning, engagement, service and leadership. Members work together, make plans, set goals and take action.

Encourage members in K-Kids and other students in elementary/primary school to consider Builders Club as they move to their next level of school!

MEMBERSHIP WILL:

- Introduce them to other students in their school.
- Give them a connection to something familiar as they change grades or schools.
- Empower them to create change and solve problems effectively.
- Develop social and emotional skills that will help them make smarter decisions and avoid risky behavior.
- Allow them to work on more advanced service projects.
- Build confidence and show them how to lead with compassion and kindness.
