

For primary/elementary school students (typically ages 6-11), K-Kids is an exciting opportunity to serve others, build confidence and develop leadership skills. As a program of Kiwanis International — a global volunteer organization with members of all ages and abilities — K-Kids is part of a worldwide tradition of service.

Working together in a student-led environment, members can:

- **Build confidence** and boost their self-worth.
- **Explore leadership skills** such as teamwork, communication and problem solving.
- **Enhance their school** and its culture by showing the power of service and leadership.
- **Make friends** and have fun with other students.
- **Identify** ways to make their school/organization and community better.
- **Connect** to the world around them.
- **Discover** the value of kindness.

“Being in K-Kids means being a leader, caring, helping your community and making a difference.”

A PROVEN PROGRAM

K-Kids is a solution for schools and organizations that want to increase students' kindness, resilience and self-worth. The program offers:

- **Engagement:** By connecting service projects to local needs, K-Kids gives students a way to understand and contribute to their community.
- **Flexibility:** Each club determines its meeting schedule, as well as the number of students and grade levels it includes.
- **Easy implementation:** Each K-Kids club receives materials that make it easy to get started, based on best practices in service and leadership.
- **Support:** Kiwanis International is a caring organization with staff and volunteers who are ready to help and have required security background checks.
- **Connection:** Join 25,000 members in nearly 1,200 K-Kids clubs — and connect to the Kiwanis family, which has clubs for members of all ages and abilities.
